# **Diabetic Meal Planner**

Thomas Capro, Francisco Cruz-Urbanc, Carson Ford, Krisi Hristova, Jared Jackson

**10/07/2024**

# Accomplishments this week

- Met with stakeholders and took notes on project details – Everyone
- Setup group chat / meeting schedule with stakeholders to keep them updated / ask questions
- Began working on Preliminary Project Plan document

[PreliminaryProjectPlans.docx](#)

- Created a GANTT chart

# Tasks not completed as planned

- Still working on GANTT chart as project schedule.

# Schedule

- [DiabeticMealPlannerGantt](#)

# Plans for next week

- Continue work on Preliminary Project Plan and complete by Monday – Oct 14th
- Share created Preliminary Project Plan with stakeholders
- Confirm project requirements with stakeholders
- Update GANTT chart as we work

# Issues

- GANTT chart formatting
- Krisi and Carson do not have Macbooks like the rest of the team. We have two options for solving this:
  - Use a way to develop the app that is not specialized for macOS, (React Native, Xamarin, or Flutter) but is still available on both macOS and Windows.
  - Download macOS on our Windows machines so that we can work with XCode and Apple's app development kit. This will allow use of SwiftUI, native to Apple, and is a staple for iOS apps with good appearance.
- Communicate project questions with stakeholders.
